telephone: 626.395.3180 **fax:** 626.395.8890 **email:** rise@caltech.edu

RISE Program Application

Questionnaire

This is not simply a program to do come and do your homework. It is a **math and science focused** program. We want to give you the tools to succeed in college. Thus, because we had broader reasons for providing this program, we need to assess whether you are a good fit for the program. Therefore this questionnaire should be completed by the student applicant only.

Directions: On a separate sheet of paper, write a brief response to each question. Think about your answers to the questions first and explain all your answers clearly.

1. How did you hear about the program and why are you interested in being a student in the RISE Program?
2. How do you think a tutor can help you? (Example: discuss ways in which the tutor can help you improve your learning.)
3. Are you willing to spend additional time doing extra work or even take an extra class if needed? What do you think this would involve?
4. What are your current intentions, motivations, or desires about college or your future? How will the RISE Program help you pursue your goals?
5. There are days when teachers will not assign homework. How will you prepare for tutoring on these days? What will you do during your time in tutoring?
6. Overall, why do you think you are a good candidate for the program?
