---

We understand that there may be friends who are interested in participating together, however we anticipate that there will be more applicants than spaces available on the Switzerland Trip. You may indicate below if you only want to go if your friend is also going, but understand that this may impact your selection to the trip.

I am only interested in joining the trip if accompanied by: \_\_\_\_\_

Since the ASB Switzerland Trip is scheduled during spring break, we understand that some may not want to return to Los Angeles - opting to stay in Geneva, Switzerland or travel from there to other destinations. To make this possible we are offering 2 options:

**Option 1: Round Trip Travel – from, and returning to, Los Angeles (Caltech) – Cost \$1,400**  
Be advised that changing your return flight will likely not be possible with this option.

**Option 2: One Way Travel from Caltech (Los Angeles) to Geneva, Switzerland – Cost \$1,200**  
Be advised that you will be expected to stay with our group until the program is completed, and you will be responsible for your own transportation from our lodging at that point.

\* Trip fees include transportation, lodgings, and most food. Additional costs for food while traveling, travel documents and insurance, optional outings, and personal spending may be incurred.

The Global Policy Alternative Spring Break Trip is possible thanks to generous funding from the Frank and Elsie Stefanko Fund, the George Housner Fund, and the Caltech Y.

**Caltech Y Global Policy ASB Trip Applications are due by Thursday, January 3rd**

Please attach your answers to the following questions:

1. Why do you think Geneva is the right venue to explore global policy? (Paragraph format – 100 to 250 words please)

2. We anticipate having the opportunity to dialogue with officials at CERN and UN agencies, among other international organizations. Please list 3 to 4 questions you would ask them about global policy.

3. Agree or disagree? Please explain your response to the following statement. The US has been too involved in international relations and global policy. (Paragraph format – 100 to 250 words please)

4. Agree or disagree? Please explain your response to the following statement: Climate change is real. There is strong evidence that significant global warming is occurring (Paragraph format – 100 to 250 words please)
