- Special thank you on website and social media

Annual Sponsor

For \$2,500:

- All of the above benefits
- Named as a sponsor on the other two Friends events on all outreach materials

Friends Events

The Friends of the Caltech Y is the primary support group for the Caltech Y, consisting of engaged and diverse community members dedicated to enriching students' lives and fostering the development of future leaders. Friends dinners are unique evenings where the Caltech and Pasadena communities come together to engage with world-renowned scientific, humanitarian, and civic leaders. In addition to the dinner, Friends are invited to private, special events throughout the year, and receive the Y's quarterly newsletters and annual report. Previous Friends' dinner speakers include Dr. Laurie Leshin, Director of JPL; Professor Frances Arnold, Nobel laureate; Dr. Eugenia Cheng, mathematician and concert pianist; Kip Thorne, Nobel laureate and so many more.

Additional events include an open house and a community experience. This spring, we will be offering a VIP tour of The Huntington Library, Art Museum & Botanical Gardens, providing participants with an exclusive and enriching experience.
